When you are in your teenage years you are consciously experiencing everything for the first time, so adolescent stories are all beginnings. There are never any endings.

Aidan Chambers

The quote is apt for the session conducted for the parents and students of Class VIII on 31 August 2019 to provide an understanding of the challenges, problems and difficulties that children and adolescence face in adjusting to the contexts in which they live, grow and study. An eminent educator, trainer and co-founder of Iceberg Training Solutions Mr Kapil Dahiya addressed the session. He addressed the students as well as the parents regarding the issues related to the adolescence period. The session was a right blend of information and sensitization. The parents and the students found the workshop very useful and enriching. They were thankful to the Principal for holding the session.
