

HINDI POEM RECITATION REPORT

KINDERGARTEN

“Poetry is the rhythmical creation of beauty in words.”

Poems are a platform to help the children understand the beauty of thoughts, expressions and feelings along with rhythm of words. They are also a source of enjoyment for children. To spread the fragrance of poetry among children, an online Hindi Poem Recitation Activity was organized for the grades of LKG and UKG on 22 July 2021. The young poets recited the poems with great enthusiasm on variety of themes like Corona, Plants, Our Earth and many more. This activity helped the children to develop their imagination, gain self-confidence and improve their oratory skills.
