

Inter School Competition for Children with Special Needs

"I will work and sweat for a great vision, the vision of transforming India into a developed nation." - APJ Kalam

These words by Dr. Kalam inspire and resonate strongly with all of us. Today, India is indeed unstoppable and scaling new heights. It is marching ahead on the path of development, taking all its people along. To showcase this, a 'Young Sculpturist' competition with a theme of "New India" was organised at Manav Rachna International School (MRIS), Sector 46 on August 09, 2019.

Ziara Porter and Madhav Madan of the Special Wing participated in this competition with great pride and gusto. Their clay model highlighted the multi-faceted growth of India - a model village, a smart city and the flight of Chandrayan.

The model was well received and appreciated by judges and other contestants and the students won the Third prize. Join us in congratulating the students on their wonderful display and we look forward to them for being a part of many more such events.
