

Orange Licklolly Day Celebrated

On 30 August 19, Orange Licklolly Day was celebrated with great zeal and zest. The sole objective was to acquaint the little ones with the concepts of this secondary colour and objects related to it. Our little saplings were dressed up in shades of vibrant orange colour, shining bright. The blooming buds were asked to bring picture cutout of orange object for object talk.

The teacher displayed picture cutouts in the class. The activity of doing finger printing in the Licklolly helped in reinforcing the concept of orange colour. The children enjoyed a lot and it was indeed a pleasure to witness little ones dressed up in orange, bubbling with energy and fascination.
