

D.A.V PUBLIC SCHOOL, SECTOR 14, GURUGRAM

Career Counselling Session for Classes XI-XII

(Commerce and Humanities Streams)

The school in association with PRATHAM organised an interactive online Career Counselling Session for the students of Grades XI and XII (Commerce and Humanities Streams) on Thursday, 3 June 2021 at 10:30 AM. The session was addressed by Mr. Praveen Khanna, an eminent Educationist.

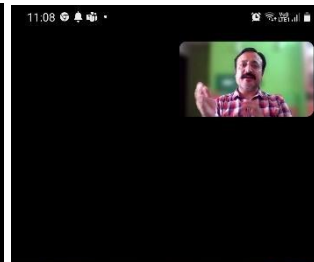

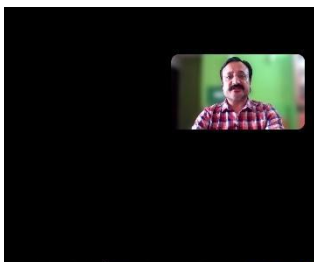

Mr. Khanna talked about Regressive and Progressive careers and gave relevant examples to help students understand the significance of achieving goals in stipulated time periods. He threw light on the Industry 4.0 Technological pillars and stressed the fact that Mathematical skills are required in today's times even if one has to find a good career. He stressed that the students should keep in mind the number of years one would take to acquire the required skills, the success rate, demand and supply situation while selecting a career option. He talked about various career options that find relevance in modern times. Some of the career options suggested and discussed were Graphic Designer, Mass Communication, Website Content Writer, Digital Marketing, E-Sports, Data Science, IAS, Psychologist, Law, Ethical Hacking etc. He emphasised that all these career choices require a 360 degree peripheral approach and increasing one's field of view. He also informed about IIM IPM course that can be undertaken after Class XII and is equivalent to MBA course only with additional emphasis on a well-rounded education.

Students' queries were answered promptly and the session concluded with a wonderful thought that skill set or learning should match one's aspirations. The session was not only informative but engaging and motivating.
