

## CYBER SAFETY WORKSHOP

The school's Cyber Safety Team organised a fun-filled Cyber Safety workshop for the students of Class V and VI on Friday i.e. 17 May 2019. The audience enjoyed interacting with their seniors on topics ranging from games played on the computer or mobile to safe use of Internet and Social Media. They were sensitized on the need of being safe online. The audience understood how to use digital devices safely and to spend quality time with family. The ways of using Internet constructively were the highlight of the workshop. The real time stories and facts told, emphasised the need to be cautious in the online world/ digital life and respecting others.

The students thoroughly understood that nothing comes for free and that they should not share their or their parents' personal information with strangers. Students were eager to share their knowledge about educational websites. All these were really helpful for the students in living a secure digital life. Curious students made it possible to have a healthy and interactive session. Overall, the students felt that the workshop was an extremely influential source for gaining information related to Cyber Safety.
