CLASS-V

THEME- FUNNY CONVERSATIONS BETWEEN TWO OBJECTS

The competition was held on 17 January, 2018. The students of all sections of Grade-V participated enthusiastically. The software used was Open Office Writer. The students used their own innovations and literary creativity in their respective creations. They came up with their own ideas and framed hilarious conversation between different non-living objects and tried to establish a close-knit association between their imaginary objects. It was a good learning experience for them and they showed immense interest while participating in the competition.
