

D.A.V. PUBLIC SCHOOL, SECTOR-10A, GURUGRAM

Ref.No.: PSG/Circ./

17 July, 2018

Dear Parents,

This is to inform you that GPS have been installed in all the buses. It will keep you informed about your ward's whereabouts while he/she is travelling in school bus. The GPS bus tracking mechanism is currently undergoing a trial for **Android** phone users only (from 15th July 2018 till 30th July 2018). It will be available to iOS users from 1st August 2018.

Kindly note the steps below to start using the App on Android phones:

1. Go to Google Play Store and search & install "RemoteDrishtee.com" App.
2. For App Login Credentials, Use Account : dav10
3. Username and Password is different for each student and it shall be given by the class teacher to students using school buses.
4. The App will enable you to view the current Location of the bus, only during school bus route timings.
5. For any technical queries related to the app, kindly contact Mr. Ravi on #7290041736.
6. You can also send your feedback directly to support@remotedrishtee.com .

I would like to share that in few instances there may be a gap of few minutes due to poor connectivity of Internet. The accuracy of the App is directly linked to Internet connectivity. We request parents to adhere to actual bus route timings as GPS tracking is directly dependent on network speed. We seek your support and cooperation in this endeavour, especially during the trial period.
