

Children Blossoming In A Nurturing Environment

School is a great place for children to interact with peers and learn valuable life skills such as sharing, taking turns, following the rules of school etc.

The new session of Kindergarten 2019 started on 28.03.19. The tiny tots came to school with mixed feeling of anxiety and curiosity. Teachers made the little ones feel comfortable by taking them on swings, narrating stories, giving them toys and helping them form a positive attitude towards the school.
