The children of Kindergarten celebrated Science week from 03/10/18 to 10/10/18. The aim of celebration was to enlighten students and get them involved in the global scientific perspective as well as stimulate their understanding of how science impacts their future and daily lives.

L.K.G

The little ones of LKG enjoyed learning about Sink & Float experiment in a play way method. Through this activity children learnt about the concept of heavy & light. The tiny tots also learnt to classify, sort and name different food grains.

U.K.G

Children of UKG enjoyed doing experiment on Filtration using filter paper, funnel and a beaker. This activity helped them to understand the process of separating mud from water. They also did an experiment on separation of iron filling from sand using magnet.
