

# SWACHHTA PAKHWARA

## (1 SEPTEMBER – 15 SEPTEMBER 2018)

Greetings of the day !

The recent floods in Kerala threw life out of gear and forced us to think of how we have been assaulting our environs. The ocean's womb just spewed scores of plastic bottles, polythene bags and what not! Well, nature's fury knows no bounds! It just strikes, leaving us dumb and shocked witnesses.

With every passing day we are posing a threat to the environment, making it dirtier and a fertile ground for diseases. We have been reckless in our activities and we do not stop. We litter our surroundings, pump toxic waste into the water bodies, in the surrounding areas, choke the planet with plastics and thus are instrumental in playing havoc with the lives of future generations.

Time has come for us to change our perspective, to be at the forefront and fight the battle so that there is no remorse and each of us is a voluntary custodian of our planet. We do this or we perish!

Time to Introspect!

It's our endeavor to keep our children healthy and free from diseases, to keep our surroundings clean and to make them aware that sanitation and hygiene are the keys to good health. We instill in our children, the importance of personal and community hygiene, how important it is to have safe and clean water, the importance of washing hands to keep away from infections and keeping the surroundings clean.

We know our endeavors will bear fruit one day and Earth will be a better place to live in. I am sure each of our children will contribute in spreading awareness.

I conclude by quoting our honorable President, D.A.V. College Managing Committee, Padamshri Punam Suri ji's words, 'Swasth raho, mast raho, vyast raho.'

Regards

Principal
